

# CASARA Ottawa

## Standard Operating Procedure

### Communications with JRCC during Actuals

It is critical that all aircrews call JRCC immediately prior to launching on an actual.

This will allow JRCC to pass on any new knowledge they have received since the original tasking and will allow them to coordinate participation in the search with other SAR assets.

It is also critical that to contact JRCC upon return to your home base or any other airfield. JRCC will not close out a search until all SAR assets are accounted for.

Communication with JRCC is paramount to the success of our missions.

JRCC can be contacted at (800) 267-7270 or (613) 965-3870.
